

## HVE-9900

### What is HDMI?

The High-Definition Multimedia Interface (HDMI) is a revolutionary technology that allows viewers to experience the highest quality digital images available. It is able to deliver top-quality video as well as audio over a single cable.

### Introducing the HDSpider™ Series from LevelOne

The HDSpider™ Series is a collection of HDMI Cat.5 senders and receivers, offering a full range of HDMI extender solutions. Choose from our 5 different HDSpider extenders to build a flexible network to send your high-quality HDMI signals to greater distances, and at a reduced cost.

### What does a short-range Cat.5 receiver do?

HVE-9900 is a great accessory to a large HDMI network. As a short-range connector that attaches to the end of a Cat.5 cable, you're able to get full HDMI quality, without the expensive HDMI cost.

When used in conjunction with the other HDSpider Series from LevelOne, HVE-9900 offers up to 25 meters deployment range with no quality loss. Sturdy and reliable construction means that once you plug and play, your network is ready to stream full HD quality signals to wherever you choose.
