2-Port USB DVI KVM Switch w/ Audio

KVM-0260

H/W Version: 1

Product Overview

The LevelOne KVM-0260 is an easy to use 2-port USB DVI KVM switch for connecting 2 multi-platform operating system computers to a single keyboard, mouse and monitor. It also allows users to connect audio from the connected computers to a single audio system.

Multi-Platform Use

The KVM-0260 supports multi-platform computer systems, enabling users to connect MAC and PC platform computers to a single console. With easy hot-key swap selection between computers, users can operate both systems simultaneously.

All cables needed are already connected to the KVM switch. Users can connect the USB KVM without any need for additional software installation or system configuration. Also, the KVM-0260 requires no power to operate.

High Quality Audio/Video Support

The 2-port DVI KVM-0260 supports DDC2B and DVI resolutions of up to 1920x1200 pixels. The switch also incorporates audio support, allowing users to connect audio and microphone channels of both systems to a single audio system.

1. Audio Connector
2. Mic Connector
3. USB Console Port
