4-Port PS/2 KVM Switch

KVM-0412

H/W Version: 1

Product Overview

The KVM-0412 4-Port PS/2 KVM Switch from LevelOne offers users with an easy to install KVM switch that can manage four computers from a single monitor, keyboard and mouse.

It allows users to access, control, boot and reboot four PS/2-enabled multimedia computers using a single PS/2 keyboard, mouse and monitor.

Flexible Multi-Computer Management Feature

Users are now offered with flexible multimedia support. The KVM-0412 offers users with user-programmable simultaneous or independent PC switching. This enables users to work on one computer while simultaneously using the other computers for work or fun.

Easy to Switch between Computers

The KVM-0412 switches between computers either through the pushbuttons located on the switch or by using keyboard hot keys. The KVM switch also offers user the ability to program the auto-scan function for automatic switching between computers.

The LED display offers an "at-a-glance" status display for easy computer activity assessment.

1. VGA Console Port
2. PS/2 Console Port
3. VGA PC Port
4. Port LED
