If your print server is the 1-Port print server, its print port is the first.

If your print server is not the 1-Port print server, for example, it is the 2 USB and 1 parallel port print server, then, the parallel port is the first. USB 1 is the second. And, USB 2 is the third.

Ip1 if your printer is connected with the first print port. Ip2 if your printer is connected with the second print port. Ip3 if your printer is connected with the third print port.

Name: Input the printer name you prefer. **Location**: Input its location. **Print Using**: Select a driver to use...

Click Add.
