

## 如何註冊 DDNS

請先至 [WWW.DYNDNS.COM](http://WWW.DYNDNS.COM) 網站.

點選 [Sign Up Now](#)

紅色框框請打勾.

### Acceptable Use Policy

The Member and DynDNS and supersedes all prior agreements between the parties regarding the subject matter contained herein. BY COMPLETING THE REGISTRATION PROCESS AND CLICKING THE "Accept" BUTTON, YOU ARE INDICATING YOUR AGREEMENT TO BE BOUND BY ALL OF THE TERMS AND CONDITIONS OF THE AUP.

2. DESCRIPTION OF SERVICE

DynDNS is providing the Member with various DNS-based aliasing and hosting services. The Member must (1) provide all equipment necessary for its own Internet connection, including computer and modem, and (2) provide for the Member's own access to the Internet and pay any fees related with such connection. The Member agrees to provide and maintain certain current, complete, and accurate information about the Member as prompted to do so by the Service. All information requested on sign-up shall be referred to as

I have read and agree to the Acceptable Use Policy above:

I understand that each Member may have only one (1) free account, and acknowledge that any creation of multiple free accounts will result in the termination of all of my accounts:

請依序填入您的資料

## Username

Username:

Your username will be used to login to your account and make changes.

輸入您所想要的名字  
例：LevelOne

## E-mail Address

E-mail Address:  Confirm E-mail Address:

The e-mail address you enter must be valid. Instructions to activate your account will be sent to the e-mail address provided. You must keep this address current. Any accounts with invalid e-mail addresses are subject to removal without warning. We do not sell our account information to anyone. Read more about our [privacy policy](#).

輸入您的 E-mail (認證收信時用)  
例：LevelOne@LevelOne.com.tw

## Password

Password:  Confirm Password:

The password you enter will be used to access your account. It must be more than 5 characters and cannot be the same as your username. Do not choose a password that is a common word, or can otherwise be easily guessed.

輸入您要登入時的密碼  
例：LevelOne

## 填寫完成點選 Create Account

### Mailing Lists

DynDNS maintains a number of mailing lists designed to keep our users informed about product announcements, client development, our company newsletter, and our system status. Please use the checkboxes below to alter your subscription preference. Your subscription preference may be changed at any time through the [account settings](#) page.

Mailing List	Subscribe
Announce	<input type="checkbox"/>
Mall-hop	<input type="checkbox"/>
system-status	<input type="checkbox"/>

### Optional Information

How did you hear about us:

Details:

Providing this information will help us to better understand our customers, and tailor future offerings more accurately to your needs. Thanks for your help!

About	Services	Account	Support	News
My Account	<b>Account Created</b>			
Create Account	Your account, tsai168, has been created. Directions for activating your account have been sent to TIMMY@DDCASIA.COM.TW. To complete registration, please follow the directions that you will receive. You must complete these steps within 48 hours to complete your registration.			
Login	You should receive the confirmation e-mail within a few minutes. Please make certain that your spam filtering allows messages from support@dyndns.com to be delivered. If you have not received this e-mail within an hour or so, request a <a href="#">password reset</a> .			
Lost Password?	Following the instructions in the password reset e-mail will also confirm your new account. If you don't receive the password reset e-mail either, you should check with your e-mail provider to determine why you are not receiving these messages.			
Search DynDNS	<input type="text"/> Search			

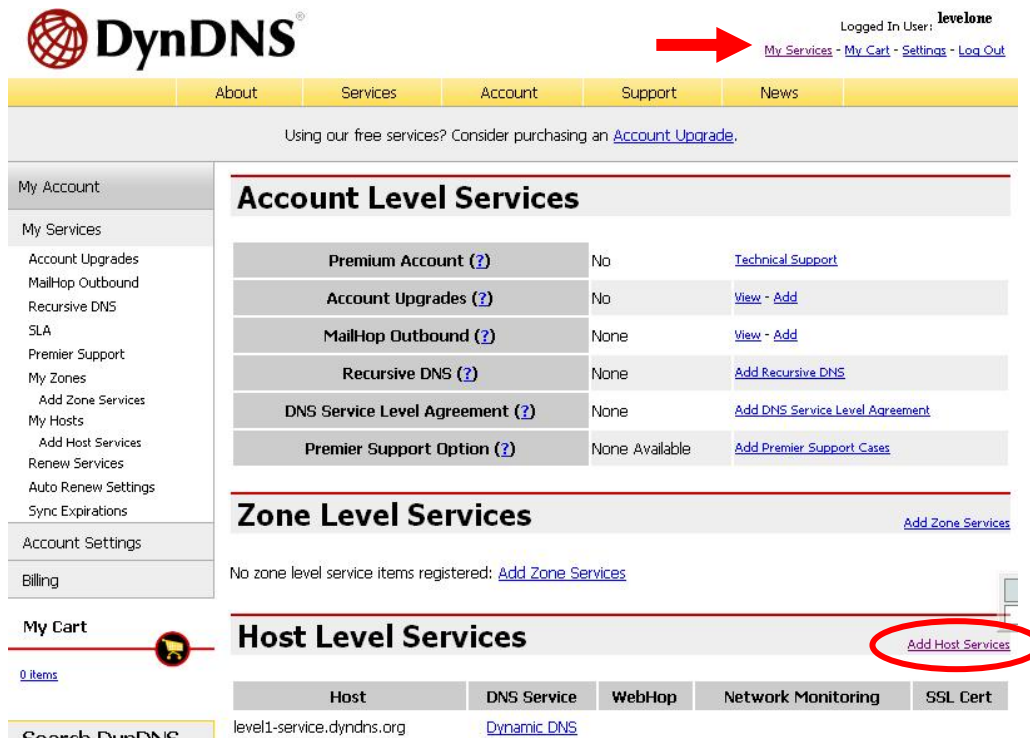

接著您就可以到所設定的信箱收信，收到信後，請按下信內容中確認的連結，

之後再到 [www.dyndns.com](http://www.dyndns.com) 登入

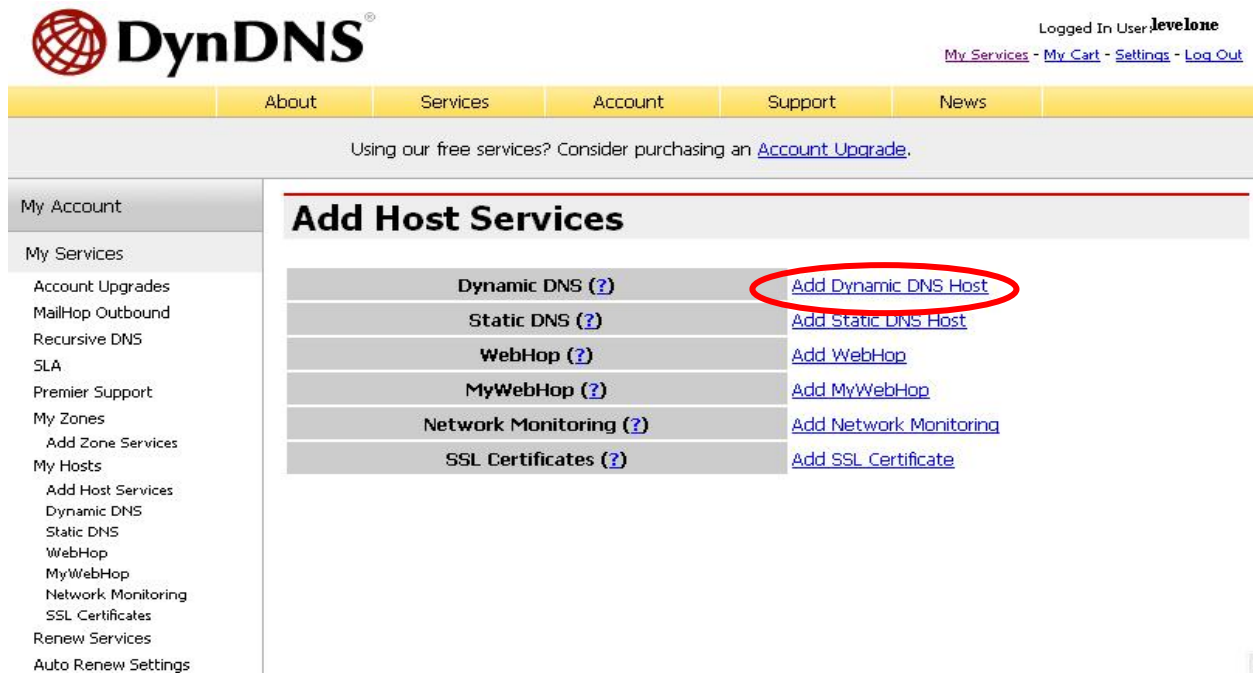

輸入您所註冊的 Name and Password 即可登入

登入完成，請點選 **My Services**，在點選 **Add Host Services**

## 點選 **Add Dynamic DNS Host**

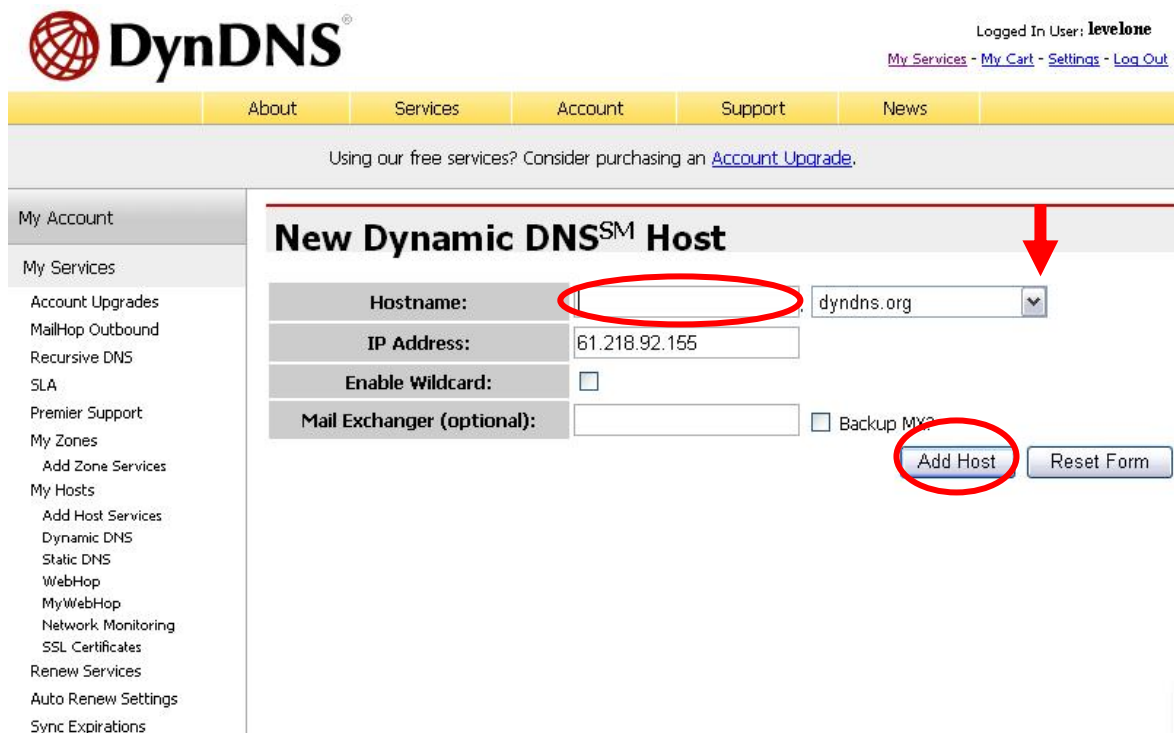

The screenshot shows the DynDNS website interface. At the top, there is a navigation bar with links for About, Services, Account, Support, and News. Below this, a banner suggests purchasing an Account Upgrade. The main content area is titled 'Add Host Services' and contains a table with the following rows:

Dynamic DNS (?)	<a href="#">Add Dynamic DNS Host</a>
Static DNS (?)	<a href="#">Add Static DNS Host</a>
WebHop (?)	<a href="#">Add WebHop</a>
MyWebHop (?)	<a href="#">Add MyWebHop</a>
Network Monitoring (?)	<a href="#">Add Network Monitoring</a>
SSL Certificates (?)	<a href="#">Add SSL Certificate</a>

The 'Add Dynamic DNS Host' link is circled in red. On the left side, there is a 'My Account' menu with various service options.

請填入您想要名稱，例如，要申請 **Level1-service.dyndns.org**，則先填入 **Level1-service** 後，再選擇 **dyndns.org**，然後請在「IP Address」中輸入您的伺服器 IP，最後按下「Add Host」即可完成。

The screenshot shows the 'New Dynamic DNS Host' form on the DynDNS website. The form has the following fields and options:

- Hostname:** A text input field containing 'Level1-service' and a dropdown menu set to 'dyndns.org'. The entire field is circled in red.
- IP Address:** A text input field containing '61.218.92.155'.
- Enable Wildcard:** A checkbox that is currently unchecked.
- Mail Exchanger (optional):** A text input field.
- Backup MX:** A checkbox that is currently unchecked.
- Buttons:** 'Add Host' and 'Reset Form'. The 'Add Host' button is circled in red.

A red arrow points to the top right corner of the form area. The left side of the page shows the 'My Account' menu.

## Modifications Complete

[Dynamic DNS Home](#)

Your modifications have been completed. Details of the new settings are below.

<b>Hostname:</b>	<a href="#">level1-service.dyndns.org</a>
<b>IP Address:</b>	220.135.160.97
<b>Wildcard:</b>	N
<b>Mail Exchanger:</b>	none
<b>Backup MX:</b>	N

此時進入 IP 網路攝影機，點選 Configuration

點選 DDNS，打勾 Enable DDNS

Host name：輸入您所新增的名稱

User name：輸入登入 [www.dyndns.com](http://www.dyndns.com) 的名字

Password：輸入登入 [www.dyndns.com](http://www.dyndns.com) 的密碼

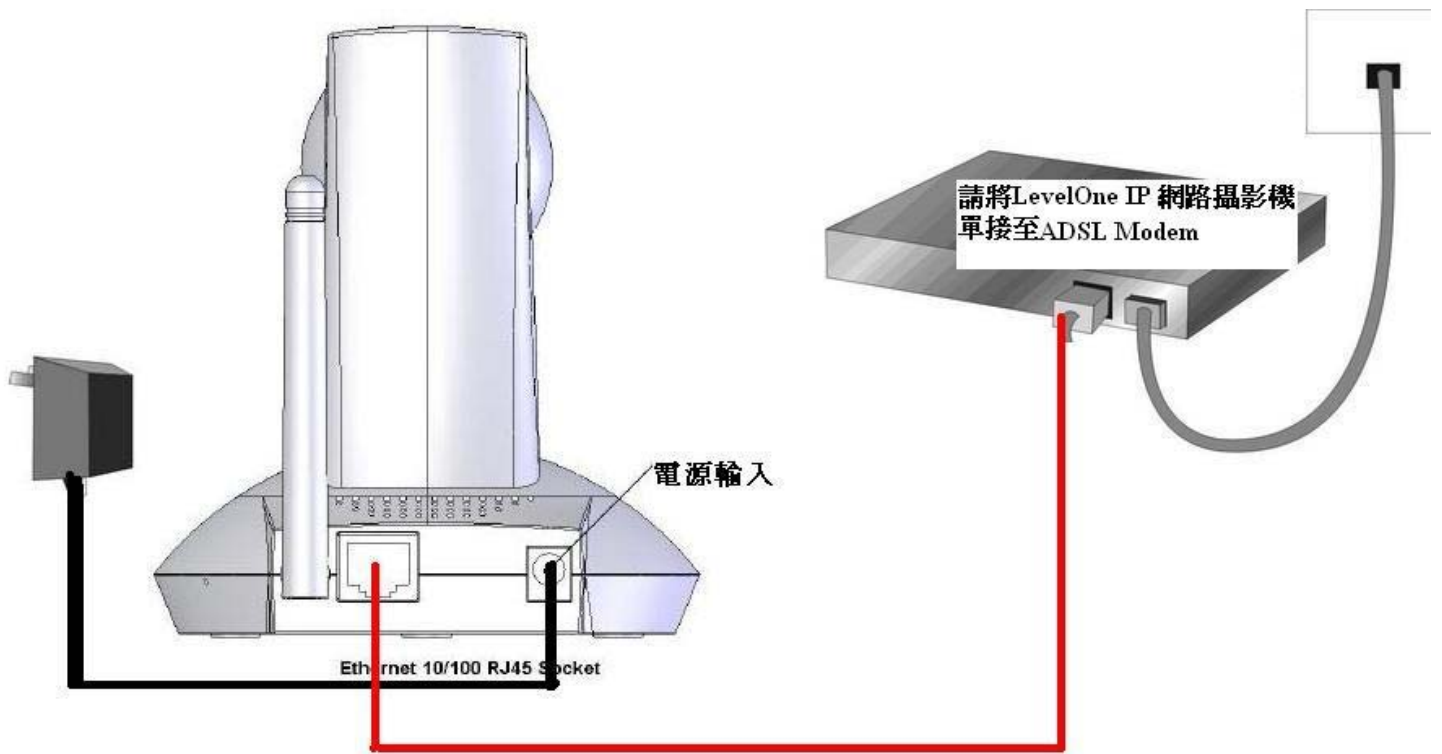

輸入完按下 Save

The screenshot shows the configuration interface for a LevelOne WCS-2060 Wireless P/T IP Network Camera. The page title is "Configuration". On the left is a navigation menu with options: HOME, System, Security, Network, Wireless LAN, DDNS (highlighted with a red arrow), Access list, Audio and video, Camera control, Email and FTP, Motion detection, Application, System log, View parameters, and Maintenance. The main content area is titled "> DDNS" and "DDNS : Dynamic domain name service". It features a checkbox for "Enable DDNS" which is checked and highlighted with a red arrow. Below this are fields for "Provider" (set to "Dyndns.org(Dynamic)"), "Host name" (set to "WCS2060.dyndns.org"), "User name" (set to "levelone"), and "Password" (masked with dots). A "Save" button is located at the bottom right of the form, also highlighted with a red arrow. The version number "0200c" is displayed at the bottom left.

點選 Network，選擇 PPPoE 輸入您 ADSL 撥號的帳號與密碼  
輸入完成請點選 Save。

The screenshot shows the configuration interface for a LevelOne WCS-2060 Wireless P/T IP Network Camera. The page title is "Configuration". On the left is a navigation menu with options: HOME, System, Security, Network (highlighted with a red arrow), Wireless LAN, DDNS, Access list, Audio and video, Camera control, Email and FTP, Motion detection, Application, System log, View parameters, and Maintenance. The main content area is titled "Network" and shows options for "Get IP address automatically" (selected) and "Use fixed IP address". Below these are fields for "IP address" (192.168.50.119), "Subnet mask" (255.255.255.0), "Default router" (192.168.50.1), "Primary DNS" (168.95.192.1), and "Secondary DNS" (168.95.1.1). There are checkboxes for "Enable UPnP presentation" and "Enable UPnP port forwarding", both of which are unchecked. A red arrow points to the "PPPoE" radio button, which is selected. Below this are fields for "User name" (7777777@hinet.net), "Password" (masked with dots), and "Confirm password" (masked with dots). The "HTTP" section has a field for "HTTP port" (80). The "RTSP streaming" section has fields for "Access name" (live.sdp) and "RTSP port" (554). A "Save" button is located at the bottom right of the form. The version number "0200c" is displayed at the bottom left.

設定完 LevelOne IP 網路攝影機，請把 IP 網路攝影機單接到 ADSL Modem 後電源重新插拔一次  
參考圖解

打開 IE 輸入您所設定的 DDNS 即可連線。
