2. Please configure VOI-8001 as below.

"Area Code" means which destination IP to dial to.

"Destination" means the remote VOI-800x IP address. Please specify to use SIP by putting sip: in front of IP address or h.323 by putting h323: in front of IP

address.

For example, if you dial "1", the destination will be 127.0.0.1 which is the local port on VOI-8001. If you dial "2" which will reach 192.168.123.2 by SIP protocol.
