

How to recover IPS-0008 administrator

password?

If you happen to forget the administrator password of IPS-0008 system, please follow below steps to recover the administrator password.

- 1. Open the IPS-0008 housing.
- 2. Find the below jumper on the circuit board.
- 3. Short the Jumper 1 and 2 like below.

- 4. Power on the IPS-0008 system.
- 5. Using the HyperTerminal to login IPS-0008's console like below and enter the password as "admin" (default admin password)

😵 iPoMan - HyperTerminal
