	2nd FTP remote folder	· · · · · · · · · · · · · · · · · · ·		
	Secondary FTP passive m	rođe		
	to sever hally fife parately	(Cause)		

- 2. Configuring motion detection by enable motion detection first. Name the new windows and click new, adjust sensitivity and percentage.
- 3. Wave your hand in front of the camera, once you see the green bar turns red, it means the motion has triggered.

- 4. Application, please configure as below if you desire FTP upload snapshot. Note the weekly schedule, the configuration below means 24 hours 7 days a week the motion detection is active.
- 5. Remember to tick the Detect motion in test (Which is the motion detection windows you just named).

Please tick Send snapshot by FTP, once the above triggering condition has met, the snapshot will be automatically uploaded to the preconfigured FTP server. 7. You can select send snapshot by email, just configure the SMTP server in Step 1, instead of configuring FTP server.

FNS-1000 Configuration

1. Enable FTP server as below. You don't need to enable anonymous login as you can input access right in the camera.

	Printer Name:	SCFD894A_pl	1
Location	Language Support:	Chanme - Traditional (950)	
	Time Zone:	(GMT+08.00) Taipei	
	Local Date:	Jan 💌 16 2006 (mth, day, year)	
	Local Time:	11 46 300 -	
NTP	Enable NTP (Netv	vork Time Protocol)	
	NTP Server:		
	NTP status:	×	
	Synchronize with	NTP server every 24 Hours starting at 12 : 0 am -	
WINS Server	Enable WINS		
	wina sever.		
Options	Enable Guest Log	ins	
	Convert failed	logins tc "guest" logins (Windows networks)	
	Enable FTP Serve		
	Enable UPnP Sur	ious F IF login ("guest" rights)	
	Enable Printer Ico	n	
	Port number for HTTP	(Web Browser) connections to this Server : 80	
	(11) (11)		
	O Save O Cancel	O Restore Default Config O Help	-

2. Creating account, in our example we use "admin".

Users Status LAN System Advanced er management. and "guest" users always exist.
r management. and "guest" users always exist.
slate
at
lar (Shara)

3. Create share folder, in this case "tt".

Home	Groups Shares Backup Disk Upgrade Setup
Existing Shares	Shares are folders which are available to network users. Use this screen to create and manage Shares. ADMEN DESR #
	Dg.
Properties	Access Browse Delete Deleting a Share does NOT delete the folder or files. Name: ADMIN Concernent

4. As you can see the IP address here is FTP server's IP address.

These settings must match other de server function is recommanded. IP Address (recommanded) C Firsed IP Address (recommanded)	evices and PCs on your LAN. Using the DHCP DHCP client)
IP Address & Obtain IP Address automatically (C Fixed IP Address (recommended)	DHCP client)
C Fixed IP Address (recommended)	
IP Address: 192 168	123 128
Network Mask: 255 255	253 0
Gateway: 192 168	123 254
DHCP Server	5
Start Address	
Firish Address	
O DHCP Client Table	
DNS Server Primary: 139 175 55	244
Backup t 192 (168 (123	1234 (autional)
	(optional)

5. Once the motion detect condition is met, you can see the snapshot is uploaded to 192.168.123.123 under tt folder as configured.
